

To whom it may concern:

I have used the services of IGI Food Consulting on more than one occasion when our company was looking to import new food products into the Polish market. In every instance, IGI FC was instrumental in getting these new products to market quickly and without problem - from understanding the import rules & restrictions, to translating ingredient lists.

I have particularly high praise for Mrs. Izabela Tańska who I worked with us closely on this project. She is extremely professional, very experienced and fluent in English. Because of her support, we have expanded our product line significantly and we continue to grow on the Polish market.

For anyone looking for support and services with regards to food service rules & regulations in Poland, I highly recommend cooperation with IGI Food Services.

Sincerely,

Glen S. Gregory
President/Co-Owner Java Coffee Company
