Dear Sirs:

IGI Food Consulting has supported MonaVie in its Poland sales activity since 2008. Notably IGI recently guided MonaVie to a successful outcome on a VAT reclassification project. The reclassification allowed MonaVie to place the product in the reduced rate VAT category. This reclassification is a tremendous savings. In addition IGI originally lead MonaVie, in a timely and effect manner, through the regulatory processes to place MonaVie's products into the Polish market. Finally, IGI has done an outstanding job working with MonaVie to prepare its product labels for use in Poland.

IGI Food Consulting is an attentive and responsive service provider. MonaVie looks forward receiving this quality service for years to come.

Kind regards,

MONAVIE
